

As a listener to K-LOVE in the Tucson Community I can say that my family receives tremendous benefit. Due to the FM translator service we are able to listen to K-LOVE on our frequent commutes between the Phoenix and Tucson Area. In addition we travel a bit and listen to K-Love in every state we go to. Without the FM Translators this would not be possible for our family to enjoy Christian Radio without a tremendous search process in each area we go through. I often talk with family throughout the country and we discuss what we have heard in news, information and prayer. We enjoy sharing and caring. Our family believes that the service provided by K-Love promotes family values, Christianity and a sense of community throughout the country. This is certainly in the best interest of our country.
